Get the Accurate Resale Value of your Car!!

With difficult economic conditions, it is likely that sales of reconditioned second-hand cars will increase. In most of the countries, it is common to lease a car rather than buying it outright. A lease is a binding contract between a buyer and a seller in which the buyer must pay fixed instalments for a pre defined number of months/years to the seller/financer. After the lease period is over, the buyer has the possibility to buy the car at its residual value, i.e. its expected resale value. Thus, this application is of commercial interest to seller/financers to be able to predict the residual value of cars with accuracy.

3. Car Resale Value Display Page

The image shows a dark gray rectangular display area. In the top-left corner, there is a small square logo featuring a car wheel and the text 'CAR WHEEL'. Centered in the middle of the display is the text 'The Predicted Car Resale Value is' in a light beige serif font. Below this, the value '16675.895568' is displayed in a larger, bold, light beige serif font.

The Predicted Car Resale Value is

16675.895568
